Generation F: Attract, Engage, Retain Sponsor Profile

Hays is a global leader in specialist recruitment.

We are the most successful and fastest growing recruitment business in the Asia Pacific.

Hays is the only recruitment company to be awarded the EOCFW citation for the sixth consecutive year. This is an achievement of which we are very proud, and one that helps us to attract talent to our organisation.

At Hays, we are committed to the development of our human capital through building a culture of reward, recognition and promotion based on merit. There has been a direct correlation between our investment in our people and our current success. It is a testament to years of developing a company culture that rewards merit and individual performance and which invests heavily in employees' learning and development.

For the fourth year in a row, Hays has sponsored the EOCFW Business Achievement Awards. This investment is indicative of our commitment, dedication and support of recruiting, retaining and developing women in the workforce.
